PROFESSIONAL SUMMARY

Results-driven Data Engineer and Analytics professional with 3+ years of experience designing data pipelines, performing large-scale data analysis, and delivering machine learning solutions that drive measurable business outcomes. Proficient in Python, SQL, and Apache Airflow for building and automating end-to-end data workflows. Skilled at translating complex datasets into actionable insights via Power BI and Tableau, with hands-on expertise in ML model development, feature engineering, and predictive analytics across multiple industry domains.

TECHNICAL SKILLS

Programming Languages: Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn), SQL

Data Engineering & Pipelines: Apache Airflow, ETL Workflow Automation, Data Cleaning, EDA, Statistical Analysis

Machine Learning: Supervised & Unsupervised Learning, Feature Engineering, Hyperparameter Tuning, Cross-Validation, Regression, Classification, Clustering

Data Visualization & BI: Power BI, Tableau, Matplotlib, Seaborn

Tools & Platforms: Jupyter Notebook, Google Colab, GitHub, Excel

Certifications: Google Data Analytics, Microsoft Power BI, Tableau Fundamentals, AI Tools Workshop, SQL Bolt

PROFESSIONAL EXPERIENCE

The Skybrisk

Pune, India

Data Science Intern

November 2025 – May 2026

- Engineered and deployed end-to-end ML pipelines using Python and Scikit-learn across 5+ business datasets, improving predictive model accuracy by 20% and accelerating data delivery cycles.
- Automated analytical workflows and data ingestion processes using Apache Airflow, reducing reporting cycle time by 30% and enabling faster decision-making for cross-functional stakeholders.
- Conducted comprehensive EDA and statistical analysis on real-world datasets, delivering Power BI and Tableau visualizations that surfaced actionable business trends for leadership.

Codec Technologies India

Pune, India

AI/ML Analyst (Contract)

July 2025 – September 2025

- Developed supervised learning models for predictive analytics by applying feature engineering and hyperparameter tuning, achieving optimal performance benchmarks on business datasets.
- Executed robust model evaluation workflows using cross-validation and performance metrics (precision, recall, F1), ensuring reliable AI-driven outputs for operational deployment.
- Analyzed intelligent automation use cases and contributed to a 15% improvement in data processing efficiency by streamlining insight generation pipelines.

Softra System Pvt. Ltd.

Pune, India

Data Analyst

August 2022 – July 2025

- Queried and analyzed large-scale operational datasets using SQL and Python, identifying statistical trends and business patterns that informed strategic planning and supported revenue growth.
- Designed and delivered 15+ interactive Power BI and Tableau dashboards providing real-time KPI visibility, reducing executive reporting preparation time by 25%.
- Collaborated with cross-functional teams to define analytical requirements, translate business needs into data models, and deliver scalable solutions aligned with organizational objectives.

Spytik Pvt. Ltd.

Pune, India

Business Analyst

February 2021 – June 2022

- Translated complex business requirements into structured analytical frameworks, enabling data-driven decision-making that improved operational efficiency across key departments.
- Produced performance analysis and BI reports from structured datasets, helping stakeholders identify growth opportunities and optimize resource allocation strategies.
- Identified recurring operational patterns through data analysis, contributing to process optimization initiatives that measurably reduced inefficiencies across business functions.

EDUCATION

Savitribai Phule Pune University

Pune, India

Bachelor of Computer Applications (BCA)

2015 – 2020
